Education:

2021-2022 – VMSZC Nádasdy Tamás – Software Developer Certificate

2017-2021 – VMSZC Nádasdy Tamás – System Technician Certificate + Matura

Languages:

Hungarian – Native	English – B2	German – A1

Work Experience:

The Ritz-Carlton – System Analyst   2022 August – 2023 August

Full-time – IT Hospitality   *Vienna, Austria*

- *Ensured seamless operations of critical systems and technology infrastructure, reflecting a commitment to excellence at The Ritz-Carlton Vienna.*
- *As the initial point of contact for technical support, provided timely solutions to internal teams and guests, showcasing strong teamwork and problem-solving skills.*
- *Hands-on experience in remote installations, coordination with external agents, testing, and maintaining environments. Developed skills in troubleshooting, network administration, and hospitality technology.*

Canon – Promoter   2021 December – 2022 April

Part-time – Sales & Marketing   *Szombathely, Hungary*

- *Doubled Canon product sales, showcasing strong sales skills in a competitive retail setting.*
- *Engaged customers persuasively, promoting Canon cameras and printers with a customer-centric approach. Served as a knowledgeable brand ambassador, providing product information and guidance.*

Personal Projects:

Portfolio   2023 September – Today

Full-Stack Web Application

- *Transformed a personal website into a captivating online presence with proficiency in HTML, CSS, React, Node.js, MySQL and Firebase. Actively developing a live full-stack solution.*
- *Overcame challenges in setting up a VPS Linux server for hosting, showcasing adaptability and proficiency in server management. Currently managing ongoing enhancements to the website, emphasizing dedication to continuous improvement.*
- *Implemented responsive web design techniques for a broader audience. Leveraged Figma for meticulous UI/UX design, ensuring a seamless and visually pleasing user experience. Skills include Bootstrap, SASS, and React.js, contributing to the creation of a valuable resource for visitors.*

Thesis – Library   2021 October – 2022 *April*

Full-Stack Web Application

- *Led the project's development, utilizing PHP with MySQL for efficient backend data processing. Employed HTML, CSS, Sass, Bootstrap, and JavaScript for a responsive and visually appealing user interface.*
- *Prioritized user-friendliness by creating extensive user documentation for seamless navigation. Compiled developer documentation for an easily understandable codebase, ensuring future maintenance and enhancements are straightforward.*

Freelancing Projects:

Digital Project Coordinator   2022 April – 2022 September

Full-Stack E-commerce Web Application for Anda Kincse Floristry   *Remote*

- *Orchestrated a seamless online shopping experience for a local florist, leading the project from concept to completion. As the sole developer and designer, utilized PHP, MySQL, HTML, JavaScript, CSS, Bootstrap, SASS, and jQuery. Gathered detailed requirements, designed a visually stunning online storefront, and maintained open communication throughout.*
- *Delivered a fully functional e-commerce application without extensive documentation. Ensured the website aligned perfectly with the florist's vision, exemplifying commitment to tailored web solutions and proficiency in full-stack web development.*

Digital Project Coordinator   2022 April – 2022 April

Frontend One Page Website for Sorokmenti Mezőgazdasági Szövetkezet   *Remote*

- *Collaborated with an agriculture company to design and develop an impactful one-page website. Leveraged JavaScript, HTML5, CSS, Bootstrap, SASS, and jQuery for optimized user experience and improved search engine visibility.*
- *Conducted a needs assessment, aligning the website with industry-specific keywords. Maintained open communication, resulting in a site that met client expectations, resonated with the target audience, and drove increased revenue.*

Digital Project Coordinator   2022 February– 2022 April

Frontend One Page Website for Szurmik Marcell Video Editor   *Remote*

- *Collaborated with freelance video editor Marcell Szurmik to design and develop a one-page website. Aligned the design with Marcell's vision, creating a dynamic showcase for his impressive skills.*
- *Took charge of all aspects, from gathering information and planning to development and ongoing maintenance. The resulting website serves as an effective online presence for Marcell, highlighting his work and expertise.*
